Education

ShanghaiTech University

M.S. STUDENT IN ELECTRONIC SCIENCE

Shanghai, China

Sep. 2025 - Present

Northeast Forestry University

B.ENG. IN COMPUTER SCIENCE

Harbin, China

Sep. 2021 - Jun. 2025

Research Interests

Core Research Interests:

Agentic AI, Multimodal Large Language Models (MLLMs), and AI for EDA.

Core Research Questions:

How can we build **scalable, self-evolution** Agentic AI systems through **reasoning-centric reinforcement learning** and **post-training**?

How can large models enable **efficient, accurate, automated** EDA workflows?

Honors and Awards

- 2026 **University Scholarship**, ShanghaiTech University
- 2025 **University Scholarship**, ShanghaiTech University
- 2025 **Outstanding Graduation Thesis**, Top 3%
- 2023 **University Scholarship**, Northeast Forestry University
- 2023 **Third Prize**, CCPC Provincial Competition
- 2023 **Second Prize**, Blue Bridge Cup Provincial Competition, C++ Group A
- 2023 **Silver Medal**, Baidu Star Provincial Competition
- 2023 **Team Third Prize**, Group Programming Ladder Tournament
- 2022 **University Scholarship**, Northeast Forestry University

Publications (*equal contribution, † corresponding authors)

CONFERENCE PROCEEDINGS

[C4] UniMRC: A Differentiable Multimodal Framework for Unified Curvilinear-Manhattan Mask Rule Checking.
Wenxuan Dong^{*}, Tianyi Li^{*}, Kai Ma^{*}, Zhen Wang^{*}, Hanbin Dong, Nan Wang, Su Zheng, Xinyun Zhang[†], Jingyi Yu, Hao Geng[†]
ICCAD, 2026.

[C3] Ariadne's Thread: A Multimodal Benchmark Weaving Point Solutions into Process Chains for AI-Driven Computational Lithography.
Shenshuo Yao^{*}, Liuke Wang^{*}, Yuyang Chen, Yinuo Zhu, Zhen Wang, Jiajie Zhang, Tianyi Li, Yiwen Wu, Xinheng Li, Kai Ma, Nan Wang, Wenxuan Dong, Xinyun Zhang[†], Jingyi Yu, Hao Geng[†]
ICCAD, 2026.

[C2] N3Litho: A GPU-Native Numerical-Neural Framework for 3D Mask Modeling, 3D Propagation, and 3D Aerial Image Simulation.
Yuyang Chen^{*}, Zhen Wang^{*}, Yinuo Zhu, Yiwen Wu, Wenxuan Dong, Jiaqi Liu, Jingyi Yu[†], Hao Geng[†]
DAC, 2026.

[C1] Multi-Strategy Named Entity Recognition System for Ancient Chinese.
Wenxuan Dong, Meiling Liu[†]
ALP, 2025.

Skills

Programming Python, C++, TypeScript, Rust, $\LaTeX$, SQL, Linux, MATLAB
Frameworks PyTorch, TensorFlow, NumPy, slime, vLLM, veRL, Flask, MySQL, Git, Anaconda
EDA KLayout, Calibre, S-Litho
